**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-28 and 32-52, drawn to a method of assembly a panel and fastener.

Group II, claim(s) 29-31, drawn to a riveting die.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I requires the special technical feature of a fastener element having a shaft portion with at least one radial groove in its shaft portion which is not required by Group II; Group II requires the special technical feature of a peripherally extending wave-like end face having hills and valleys in the axial direction which is not required by Group I. Therefore, restriction as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
